**The Coronavirus Pandemic, Addiction, and Mental Health.**

In the 12 months ending September 2020, over 87,000 people died of drug overdose in this country, far eclipsing the record 72,000 overdose deaths in 2019. Suicides, drug use, and alcohol use have all significantly increased since March 2020. At this forum, a panel of addiction and mental health experts will discuss the mental health costs of the Covid-19 crisis, and how we can help those struggling to cope.
